Supplemental Submission Form for Cellular Phones

It is the policy of the NJRCFL that all cellular telephones first be analyzed utilizing the cellular telephone kiosk located at the front of the facility. If the kiosk is unable to recover the necessary information, the cellular telephone will be assigned to a forensic examiner for further analysis. This may include sending the device to another facility for data recovery or attempts to unlock/bypass security features. No cellular telephone will be taken in as evidence for examination without this supplemental form. Check all that apply. Please refer to the NJRCFL website for additional policies.

Brand of Phone _____ Model _____
Serial Number _____ Carrier _____

Operating System (if known) ☐ Apple IOS ☐ Android (Google) ☐ Windows ☐ Other _____
Check all that apply
